

CAUSEWAY DEFINED GROWTH FUND MORE PREDICTABLE RETURNS IN AN UNPREDICTABLE WORLD

Investing wisely is crucial for securing your financial future. In today's dynamic market, it is essential to choose investment options that offer growth potential while mitigating risks.

Introducing the Causeway Defined Growth Fund (the Fund) - A Fund designed to help you to invest with confidence.

WHY INVEST IN CAUSEWAY DEFINED GROWTH FUND?

INCREASED PROBABILITY OF POSITIVE RETURNS

The Fund aims to deliver consistent 7-8% p.a. growth over the medium to long term by investing in a diversified portfolio of equity-linked Autocalls. The Autocalls enable the Fund to generate positive returns in rising, flat or even slightly falling markets.

RISK MANAGEMENT

The Fund is built with risk management at its core. Whilst investing always involves risks, the Fund effectively mitigates the credit risk of the issuers by holding G7 government bonds, considered among the safest assets.

TRANSPARENCY AND ACCESSIBILITY

The Fund offers full transparency with regular weekly, monthly and quarterly updates, and the latest performance is available on our Portal. Additionally, as a regulated UCITS structure with daily pricing structure with daily pricing the Fund is available through all main Platforms and Life Companies.

LOOKING FORWARD

This table shows that most of the underlying investments held by the Fund have significant stored value. Even if the markets are flat the Fund is expected to deliver 20% over the next 3 years.

This is what sets the Fund apart versus traditional long-only equity funds which retain no latent value during flat or down market.

KEY RISKS

This is a marketing communication. A comprehensive list of risk factors is detailed in the Risk Warnings Section of the Prospectus and the Supplement of the Fund and in the relevant key investor information document (KIID). Final investment decision should not be contemplated until the risks are fully considered. A copy of the English version of the Supplement, the Prospectus, and any other offering document and the KIID can be viewed at <https://causeway-securities.com/defined-growth-fund/> and <https://www.geminicapital.ie/>. A summary of investor rights associated with an investment in the Fund is available in English at <https://www.geminicapital.ie/>.

A full list of fees and expenses associated with your investment can be found in the Fund Supplement under the section titles "Fees and Expenses". Calculations do not consider credit spread movements of the issuers of the securities. The Mark to Market of the securities and therefore the NAV of the Fund will decrease as credit spreads widen and vice versa if spreads narrow. The value of investments and income from them can go down and you may get back less than originally invested. There is no guarantee that the Fund will achieve its objective.

The Fund invests in derivatives for investment purposes, for efficient portfolio management and/ or to protect against exchange risks. Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of a derivative investment to fluctuate and the Fund could lose more than the amount invested.

The Fund invests in high quality government bonds. All bonds will be rated at least A- by Standard and Poor's at outset. If any of the bonds the Fund owns suffer credit events the performance of the Fund could be adversely affected. Other risks the Fund is exposed to include but are not limited to, credit and counterparty risk, possible changes in exchange rates, interest rates and inflation, changing expectations of future market volatility, changing expectations of equity market correlation and changing dividend expectations.

A decision may be taken at any time to terminate the arrangements for the marketing of the Fund in any jurisdiction in which it is currently being marketed. Shareholders in affected EEA Member State will be notified of any decision marketing arrangements in advance and will be provided the opportunity to redeem their shareholding in the Company free of any charges or deductions for at least 30 working days from the date of such notification.
